

**HOANG LAM ENGINEERING
EQUIPMENT MATERIALS JSC**

**No. 25T1-N05, 5th floor, Hoang
Ngan Street, Yen Hoa Ward,
Hanoi, Viet Nam**

Hoang Lam Technical Equipment Materials Joint Stock Company (often referred to as Hoang Lam JSC) was established in 2012, located in Ha Noi, is a dynamic and growing enterprise specializing in the distribution and supply of industrial chemicals for the mineral processing and ceramic manufacturing industries in Vietnam.

Since its establishment, Hoang Lam has built a strong reputation as a reliable partner for both imported and locally sourced chemical products, ensuring consistent quality, competitive pricing, and timely delivery for industrial clients. The company has developed long-term supply relationships with trusted chemical manufacturers and traders from China, India, and other international markets, while also leveraging domestic resources from key production regions such as Lao Cai and Hai Phong.

**HOANG LAM ENGINEERING
EQUIPMENT MATERIALS JSC**

In recent years, Hoang Lam has diversified its product portfolio, expanding beyond specialty chemicals for mining and ceramics to include a range of basic industrial chemicals, water treatment agents, and agricultural fertilizers. This strategic move enables the company to serve a broader customer base and contribute to the sustainable growth of multiple industrial sectors in Vietnam.

Driven by its core values of quality, reliability, and innovation, Hoang Lam JSC continues to strengthen its supply chain network and technical expertise, aiming to become one of the leading chemical solution providers in Vietnam.

CONSUMER FOCUS

At Hoang Lam Technical Equipment Materials Joint Stock Company, our commitment is to bridge the gap between international manufacturers and domestic industries by providing reliable access to high-quality chemical products. As a dedicated trading company, we carefully source both imported and local materials to deliver the best value and consistent quality to our customers.

Guided by our motto — “Best Quality at the Right Price at the Right Time Delivery” — we ensure every transaction meets global standards while fulfilling the specific needs of our clients. Our professional team actively builds long-term partnerships, offering trusted supply solutions to support the growth of Vietnam’s mineral and ceramic industries, as well as its expanding basic chemicals and fertilizers sectors.

2025

Expanded business portfolio to include basic chemicals and agricultural fertilizers, supporting broader industrial and farming sectors.

2023

Strengthened environmental compliance and green logistics system. Upgraded warehouse and handling facilities to ISO-certified safety and environmental standards.

2021

Established partnerships with leading international suppliers of industrial chemicals from China, India, and Southeast Asia.

2019

Became a key supplier for major mineral processing and ceramic factories in Northern and Central Vietnam.

2016

Officially restructured into Hoang Lam Technical Equipment Materials Joint Stock Company to prepare for national-scale growth.

2015

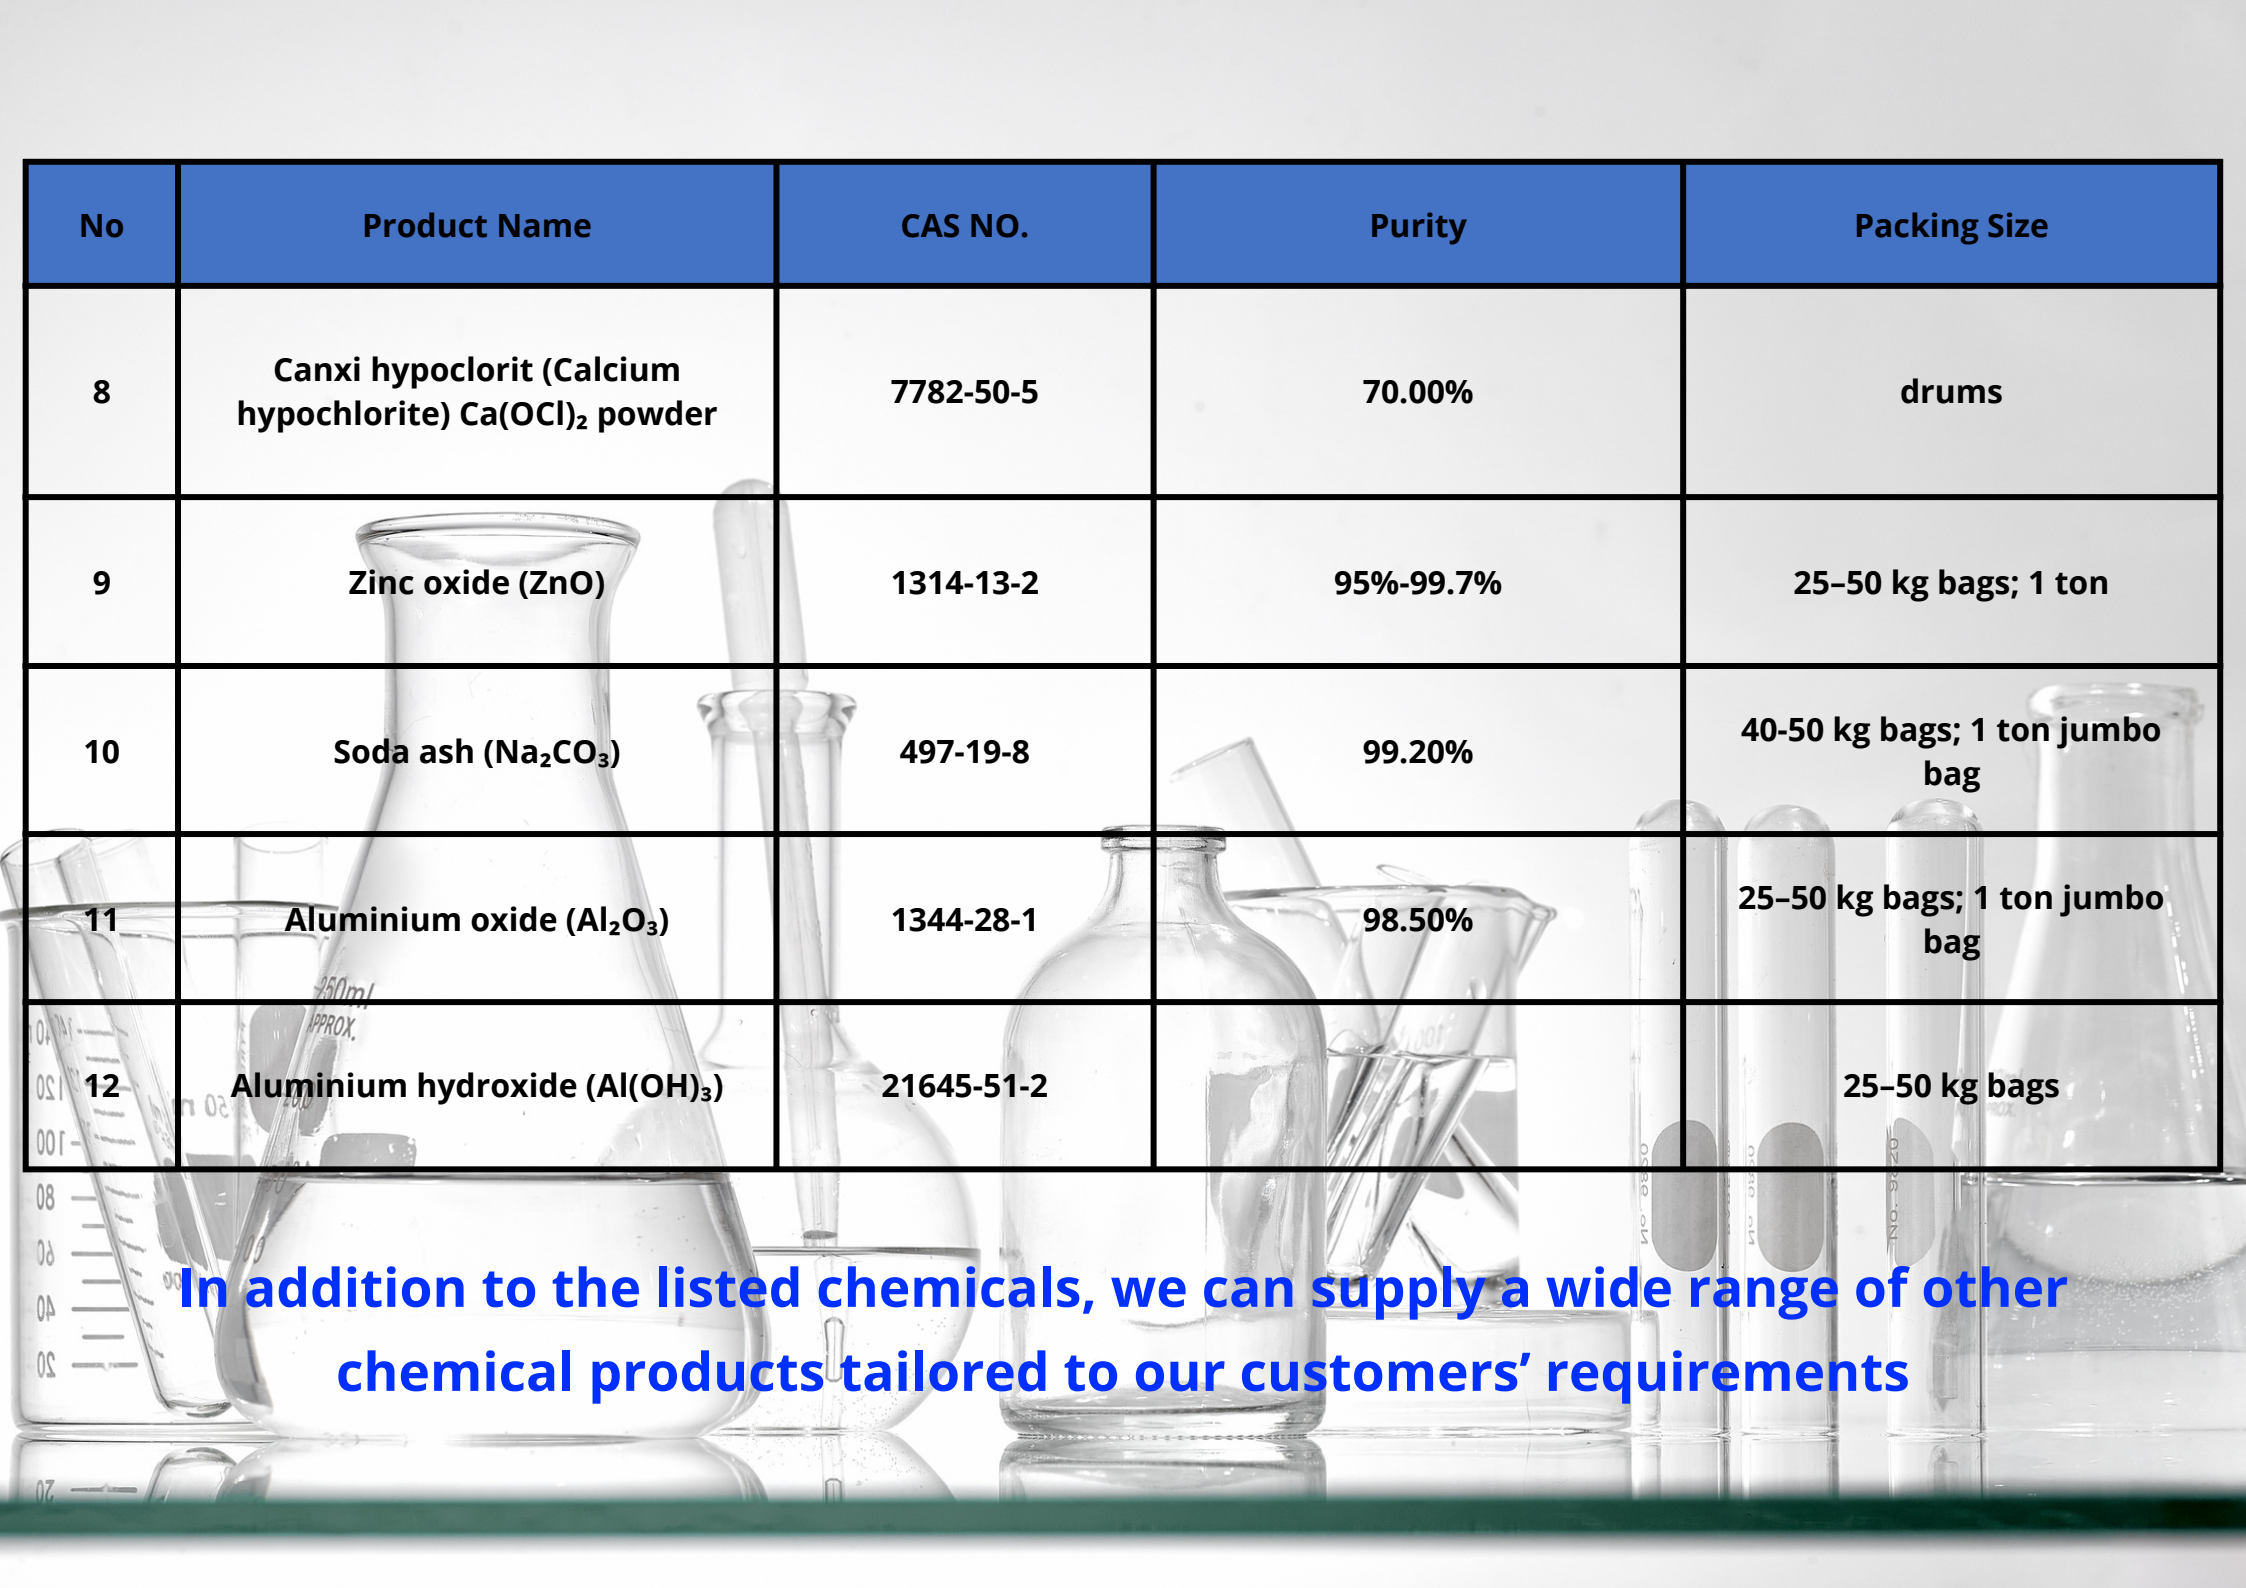

Diversified from equipment trading to import and distribution of industrial chemicals. Built the first chemical storage and distribution center in Hai Phong.

2012

Founded as a local supplier of technical equipment and industrial materials to mining and ceramic manufacturers in Vietnam.

CHEMICAL

No	Product Name	CAS NO.	Purity	Packing Size
1	Sodium Sulfate Anhydrous (Na ₂ SO ₄)	7757-82-6	99%-99.50%	25 kg / 50 kg PP bags; 1-ton
2	Caustic Soda Liquid	1310-73-2	32.00%-48.00%	drums/tanker
3	Caustic Soda Flakes	1310-73-2	99%	25 kgPE or PP bags
4	Sulfuric Acid (H ₂ SO ₄)	7664-93-9	60%-99%	drums / tankers
5	Calcium hydroxide (Ca(OH) ₂)	1305-62-0	90-93% Ca(OH) ₂	25 kg / 50 kg bags
6	PAC (polyaluminium chloride [Al _n (OH) _m Cl _{3n-m}])	1327-41-9	Typical available: 31% Al ₂ O ₃ equiv (common 28-30% PAC for water)	25 kg bags
7	Polymer (PAM — polyacrylamide, flocculant (C ₃ H ₅ NO) _n or (-CH ₂ CHCONH ₂) _n)	9003-05-8		drums/tanker

No	Product Name	CAS NO.	Purity	Packing Size
8	Canxi hypochlorit (Calcium hypochlorite) $\text{Ca}(\text{OCl})_2$ powder	7782-50-5	70.00%	drums
9	Zinc oxide (ZnO)	1314-13-2	95%-99.7%	25-50 kg bags; 1 ton
10	Soda ash (Na_2CO_3)	497-19-8	99.20%	40-50 kg bags; 1 ton jumbo bag
11	Aluminium oxide (Al_2O_3)	1344-28-1	98.50%	25-50 kg bags; 1 ton jumbo bag
12	Aluminium hydroxide ($\text{Al}(\text{OH})_3$)	21645-51-2		25-50 kg bags

In addition to the listed chemicals, we can supply a wide range of other chemical products tailored to our customers' requirements

FERTILIZER

No	Product Name	CAS NO.	Purity	Packing Size
13	Humic acid	1415-93-6	99%	25 kg bags; soluble forms in sacks
14	Borax (sodium tetraborate)	1303-96-4	99%	25 kg bags
15	Potassium sulfate (K_2SO_4)	7778-80-5	K_2O : 50% - 52% S: 17%-18%	25-50 kg bags; jumbo bags
16	MAP (Monoammonium phosphate) — MAP P_2O_5	7722-76-1	11% N , 50% - 61% P_2O_5	Granular 1-4 mm; 25/50 kg bags; jumbo bags

COSMETICS

No	Product Name	CAS NO.	Purity	Packing size
17	Sorbitol (Solbitol) liquid	50-70-4	70%	270 kg drum (common), 250/275 kg drums, IBC
18	Refined sugar — 0.4 mm (particle size)	57-50-1	99.50%	25 kg / 50 kg bags; 1 ton jumbo bag

Environment is our primary concern

At Hoang Lam Technical Equipment Materials Joint Stock Company, protecting the environment is at the heart of our operations. We recognize that the chemical industry plays a critical role in shaping sustainable industrial growth, and we take that responsibility seriously.

We prioritize working with suppliers who follow international environmental standards, and actively promote the use of cleaner, safer, and more efficient chemical products for our customers in the mineral and ceramic industries.

As we expand into basic chemicals and agricultural fertilizers, we are also investing in solutions that support resource efficiency and circular practices, including waste reduction, safe chemical handling training, and greener logistics.
